Summary

Frontend Developer specializing in React.js with strong experience in building modern, responsive web applications. Developed real-world projects including a crypto dashboard, e-commerce platform, and weather app with API integration and clean UI design. Passionate about creating intuitive user experiences and continuously improving performance, scalability, and design quality.

Skills

- Programming Language: JavaScript , TypeScript
- Frontend Development: HTML5, CSS3, React.js
- API Integration: REST APIs
- Tools & Version Control: Git, GitHub
- Core Concepts: Responsive Web Design, Component-Based Architecture

Projects

1. [Crypto Dashboard](#) (React.js, REST APIs, Chart.js, CSS)
 - Developed a responsive cryptocurrency dashboard using React.js to display real-time market data.
 - Integrated public APIs to fetch and visualize cryptocurrency prices, trends, and market statistics.
 - Designed a modern, card-based UI with dynamic color indicators for price changes (gain/loss).
 - Implemented clean and user-friendly layout with focus on performance and responsiveness.
2. [Bookswagon App](#) (React.js, JavaScript, CSS, REST APIs)
 - Developed a responsive e-commerce web application using React.js for browsing and searching books.
 - Implemented product listing with filtering and search functionality to enhance user experience.
 - Designed reusable components and structured UI for scalable and maintainable code.
 - Created a modern and user-friendly interface with focus on layout, responsiveness, and usability.
3. [Weather App](#) (React.js, JavaScript, CSS, OpenWeatherMap API)
 - Developed a responsive weather application using React.js with real-time data fetching.
 - Integrated OpenWeatherMap API to display current weather conditions and 5-day forecast.
 - Designed a modern user interface with card-based layout and dynamic weather icons.
 - Implemented error handling and user input validation for improved user experience.

Experience

- 1) Business Development Executive
Navishaa – Microsoft Certified Tech Resources | Oct 2024 – June 2025
 - Identified and developed new business opportunities to support company growth.
 - Managed client communication and maintained long-term professional relationships.
 - Assisted in preparing proposals, presentations, and market research reports.
 - Collaborated with technical and management teams to ensure client requirements were met.

Education

- G.H Rasoni Polytechnic, Nagpur Master of Computer Application (2022-2024)
- Shankarlal Khandelwal College, Akola Bachelor of Computer Application (2019-2022)
